Hattigauda , Kathmandu

+ SUMMARY

I am a passionate and dedicated person with eagerness to learn and grow everyday in the field of web development. I have experience transforming complex designs into functional, user-friendly websites. I'm always eager to learn new technologies and take on challenging projects that push my skills to the next level.

+ EDUCATION

+2 science

National School of Sciences

Bachelors degree in CSIT

St. Lawrence College / April, 2022 - Present

+ PORTFOLIO

Sample NGO webpage

This project is a static webpage design for a sample NGO, built with HTML and CSS.

<https://github.com/mahimakoirala/project>

PHP and MySQL project

A project built using PHP, MySQL, and Bootstrap. It allows users to browse and read books without requiring a login. However, admin access is restricted to authenticated users, allowing them to manage and update the system's database content securely.
